Questionnaire

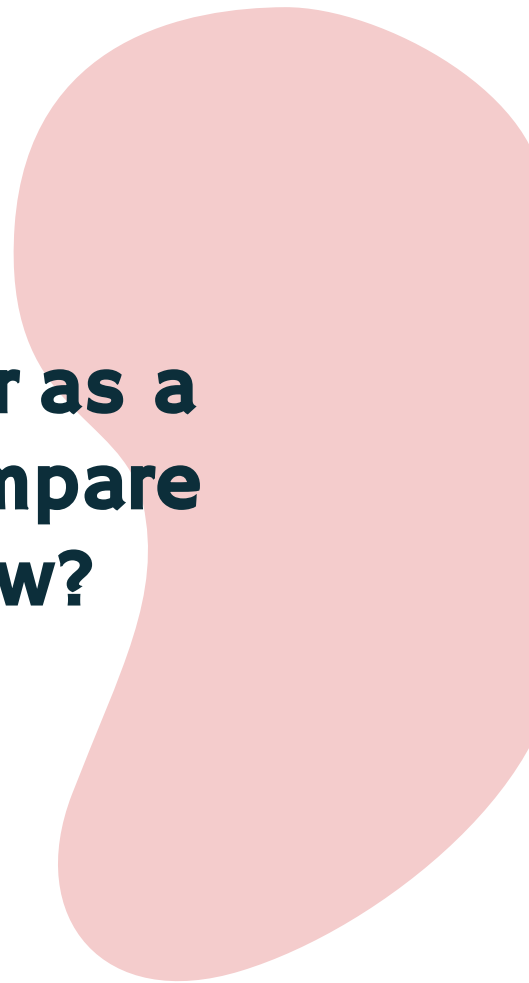

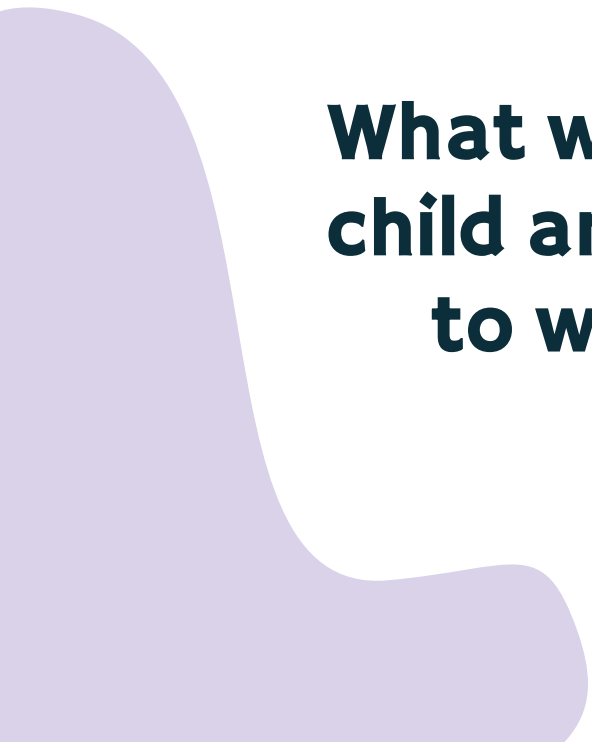

What do you do? Describe your job position.

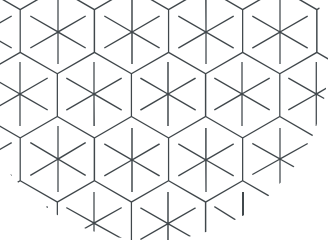

What was your dream career as a child and how does that compare to what you are doing now?

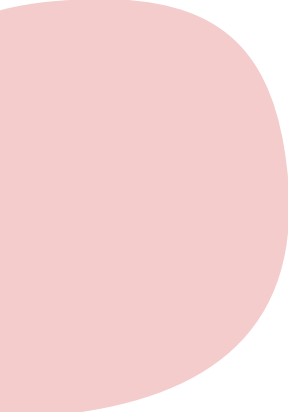

What was your first job out of college? What did you learn from that experience?

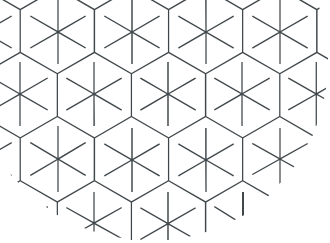

Is there a time when you felt lost and decided you wanted to change the direction of your career?

Which have you found is a better motivator, a financial incentive or a topic you're passionate about?

If you took a break before pursuing higher education after undergrad, walk us through that experience.

**What did you do during this break?
How did this impact your career trajectory?**

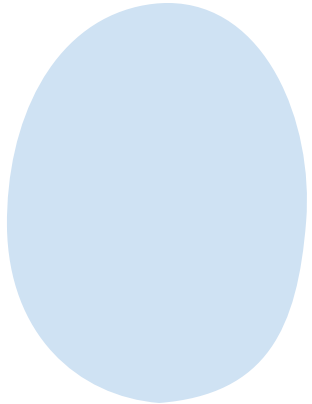

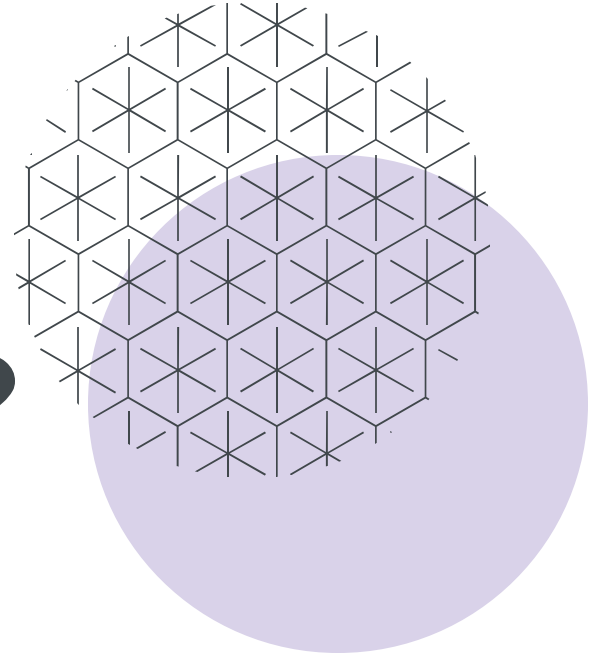

Share a positive moment that occurred recently in your career.

What is some of the best career advice you have received?
