Introduction

Name, Educational History, Position, Department, Specialty in your field

Chiara Blake

Major: Behavioral Neuroscience
Minor: Data Science

Programs Coordinator for the College of Science
Student Diversity Advisory Council

Host

Prof. Oyinda Oyelaran

Courses:

- Organic Chemistry I & II

Department:

Chemistry and Chemical Biology (CCB)

Involvement:

- Co-PI of CCB's NSF-REU site program since 2018
- COS Associate Dean of Faculty Affairs

Panelist

Prof. Kirsten Fertuck

Courses:

- Inquiries in Cell and Molecular Biology
- Molecular Cell Biology
- Endocrineology

Department:

Biochemistry, Chemistry

Involvement:

- Full-time teaching faculty member in Biochemistry

Prof. Wendy Smith

Courses:

- Entomology
- Cell and Molecular Biology
- Endocrineology

Department: Biology

Involvement:

- 2006 University Teaching Award Recipient
- Co-Director of Northeastern University Skills and Capacity for Inclusion
- Performed research on the molecular biology of development and immunity

Panelist

Prof. Richard Melloni

Courses:

- Clinical Neuroanatomy
- Biological Psychology
- Psychopharmacology

Department:

Psychology, Behavioral Neuroscience

Involvement:

- Vice-Chair of the NU-Institutional Animal Care and Use Committee
- Chair, College of Science Full Professor Advisory Committee
- Psychology Department Safety Officer

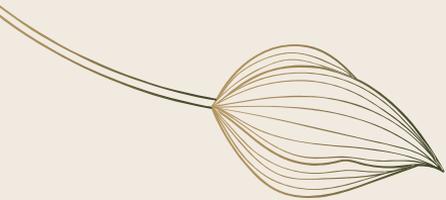

Panelist

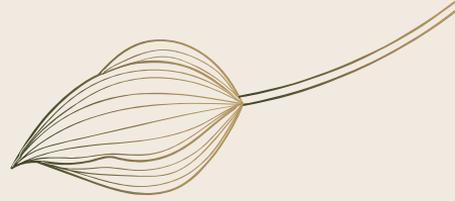

Questionnaire

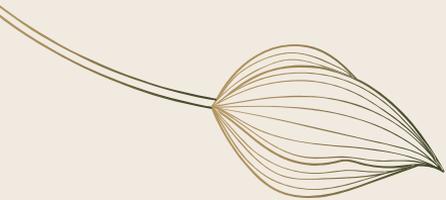

What did you know about science when
you were in highschool?

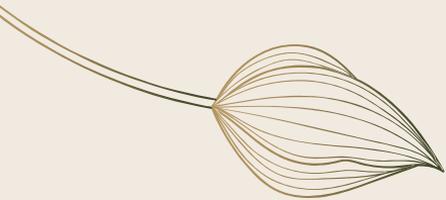

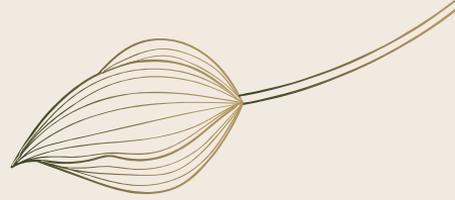

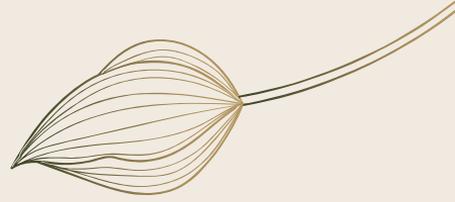

Why did you choose to pursue your degree while in college? Was there a specific experience that led you to this decision?

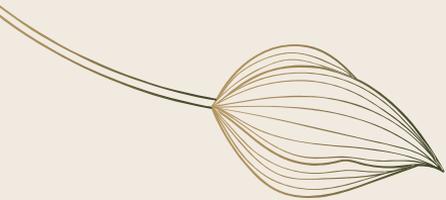

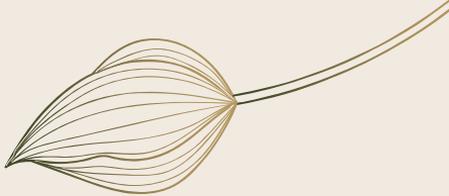

How did the academic pressures of
college make you feel?

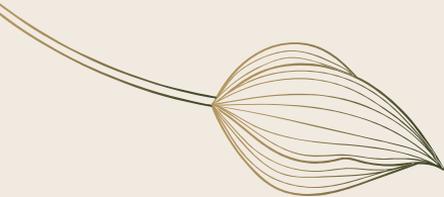

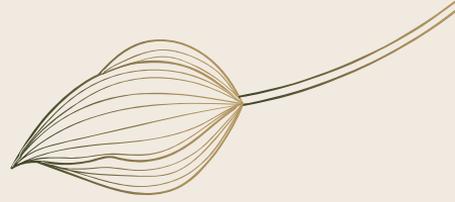

At any point in college did you feel lost?
How did you overcome this feeling?

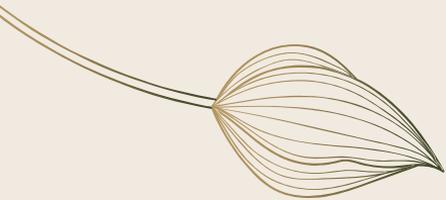

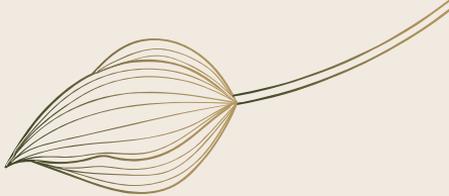

What is one thing you did during college
that made a meaningful impact on your
career?

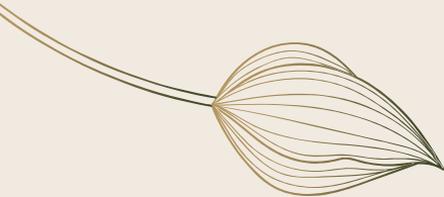

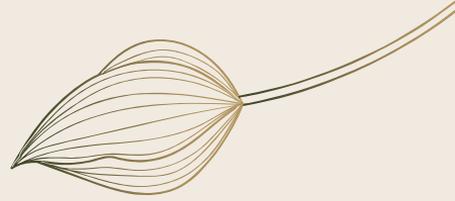

In three words describe your initial reaction to the world after college.

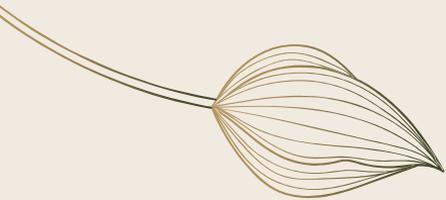

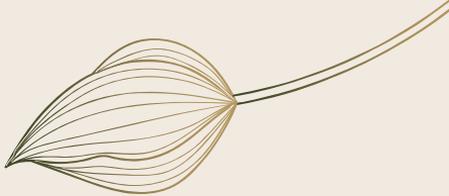

Did you take a detour during your career? If so share what you learned from this experience

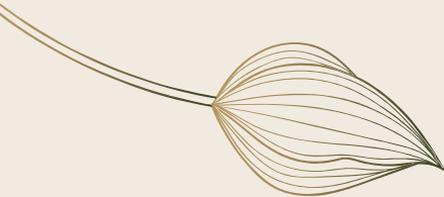

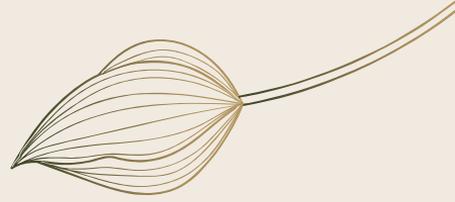

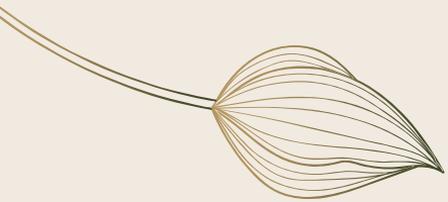

Have you ever been in a position where there were ethical concerns regarding the work you were doing? How did you navigate that?

What's a resource you wish you saw
Northeastern students use more?

Audience Questions

Thank You
